

Goldman Sachs — 30 DSA Interview Practice Questions

Targeted practice set for software-engineering interview preparation. Problems are LeetCode-style and can be practiced on LeetCode, GeeksforGeeks, HackerRank, CodeSignal, CodeChef or equivalent platforms. This is a preparation list based on public interview patterns; it is not a claim that these exact questions will be asked.

Public reports include Decode Ways, Distinct Subsequences, Maximal Square, Kth Largest and graph/maze problems.

#	Problem	Topic	Difficulty	Platform
1	Best Time to Buy and Sell Stock	Array	Easy	LeetCode-style
2	Binary Search	Binary Search	Easy	LeetCode-style
3	Climbing Stairs	DP	Easy	LeetCode-style
4	Missing Number	Array/Math	Easy	LeetCode-style
5	Two Sum	Array/Hashing	Easy	LeetCode-style
6	0/1 Knapsack	DP	Medium	LeetCode-style
7	Cheapest Flights Within K Stops	Graph/DP	Medium	LeetCode-style
8	Coin Change	DP	Medium	LeetCode-style
9	Decode Ways	DP	Medium	LeetCode-style
10	External/Large File Sorting	External Sorting	Medium	LeetCode-style
11	Find Minimum in Rotated Sorted Array	Binary Search	Medium	LeetCode-style
12	House Robber	DP	Medium	LeetCode-style
13	Koko Eating Bananas	Binary Search on Answer	Medium	LeetCode-style
14	Kth Largest Element in an Array	Heap/Quickselect	Medium	LeetCode-style
15	Longest Common Subsequence	DP	Medium	LeetCode-style
16	Longest Increasing Subsequence	DP	Medium	LeetCode-style
17	Maximal Square	DP/Matrix	Medium	LeetCode-style
18	Maximum Subarray	Array/Kadane	Medium	LeetCode-style
19	Maze II	Graph/Dijkstra	Medium	LeetCode-style
20	Meeting Rooms II	Intervals/Heap	Medium	LeetCode-style
21	Network Delay Time	Graph/Dijkstra	Medium	LeetCode-style
22	Product of Array Except Self	Array	Medium	LeetCode-style
23	Search in Rotated Sorted Array	Binary Search	Medium	LeetCode-style
24	Top K Frequent Elements	Heap/Hashing	Medium	LeetCode-style
25	Ugly Number II	DP/Heap	Medium	LeetCode-style
26	Word Break	DP	Medium	LeetCode-style
27	Distinct Subsequences	DP	Hard	LeetCode-style
28	Edit Distance	DP	Hard	LeetCode-style
29	Median of Two Sorted Arrays	Binary Search	Hard	LeetCode-style
30	Merge K Sorted Lists	Heap/Linked List	Hard	LeetCode-style

Interview practice rule: For each problem, first explain brute force, then optimize it. Always state time complexity, space complexity, assumptions and edge cases. After solving, practice one variation of the same pattern.
