

Uber — 30 DSA Interview Practice Questions

Targeted practice set for software-engineering interview preparation. Problems are LeetCode-style and can be practiced on LeetCode, GeeksforGeeks, HackerRank, CodeSignal, CodeChef or equivalent platforms. This is a preparation list based on public interview patterns; it is not a claim that these exact questions will be asked.

Public reports show DSA rounds with strong tree/graph/DP emphasis and attention to complexity.

#	Problem	Topic	Difficulty	Platform
1	Binary Search	Binary Search	Easy	LeetCode-style
2	Climbing Stairs	DP	Easy	LeetCode-style
3	Diameter of Binary Tree	Tree/DFS	Easy	LeetCode-style
4	Maximum Depth of Binary Tree	Tree	Easy	LeetCode-style
5	0/1 Knapsack	DP	Medium	LeetCode-style
6	Binary Tree Level Order Traversal	Tree/BFS	Medium	LeetCode-style
7	Cheapest Flights Within K Stops	Graph/DP	Medium	LeetCode-style
8	Coin Change	DP	Medium	LeetCode-style
9	Decode Ways	DP	Medium	LeetCode-style
10	Find Minimum in Rotated Sorted Array	Binary Search	Medium	LeetCode-style
11	House Robber	DP	Medium	LeetCode-style
12	Insert Interval	Intervals	Medium	LeetCode-style
13	Koko Eating Bananas	Binary Search on Answer	Medium	LeetCode-style
14	Longest Common Subsequence	DP	Medium	LeetCode-style
15	Longest Increasing Subsequence	DP	Medium	LeetCode-style
16	Lowest Common Ancestor of a Binary Tree	Tree	Medium	LeetCode-style
17	Maximal Square	DP/Matrix	Medium	LeetCode-style
18	Maze II	Graph/Dijkstra	Medium	LeetCode-style
19	Meeting Rooms II	Intervals/Heap	Medium	LeetCode-style
20	Merge Intervals	Intervals	Medium	LeetCode-style
21	Network Delay Time	Graph/Dijkstra	Medium	LeetCode-style
22	Number of Islands	Graph/BFS-DFS	Medium	LeetCode-style
23	Search in Rotated Sorted Array	Binary Search	Medium	LeetCode-style
24	Ugly Number II	DP/Heap	Medium	LeetCode-style
25	Word Break	DP	Medium	LeetCode-style
26	Binary Tree Maximum Path Sum	Tree/DFS	Hard	LeetCode-style
27	Distinct Subsequences	DP	Hard	LeetCode-style
28	Edit Distance	DP	Hard	LeetCode-style
29	Median of Two Sorted Arrays	Binary Search	Hard	LeetCode-style
30	Serialize and Deserialize Binary Tree	Tree/Design	Hard	LeetCode-style

Interview practice rule: For each problem, first explain brute force, then optimize it. Always state time complexity, space complexity, assumptions and edge cases. After solving, practice one variation of the same pattern.
